

Sponsored by the Library Services for the Deaf and Hard of Hearing

UNBIASED OBJECTIVE

This project serves as a unifying resource, focusing on the issues that all D/DB/HH people face: literacy, health, wellness, safety, and employment. Communication choices and modality are not debated or favored. This is a neutral ground for information.

COLLABORATION

The success of this project depends on the collaboration of interested stakeholders who want to serve an underserved population across the country. It can become a useful tool for future developments.

IMLS GRANT

This project is made possible in part by the Institute of Museum and Library Services [LG-250047-OLS-21].
